

## **Data and Artificial Intelligence**

### **Cyber Shujaa Program**

#### **Week 4 Assignment** **Business intelligence on Power BI**

**Student Name:** Cherotich Mercy

**Student ID:** CS-DA01\_25091

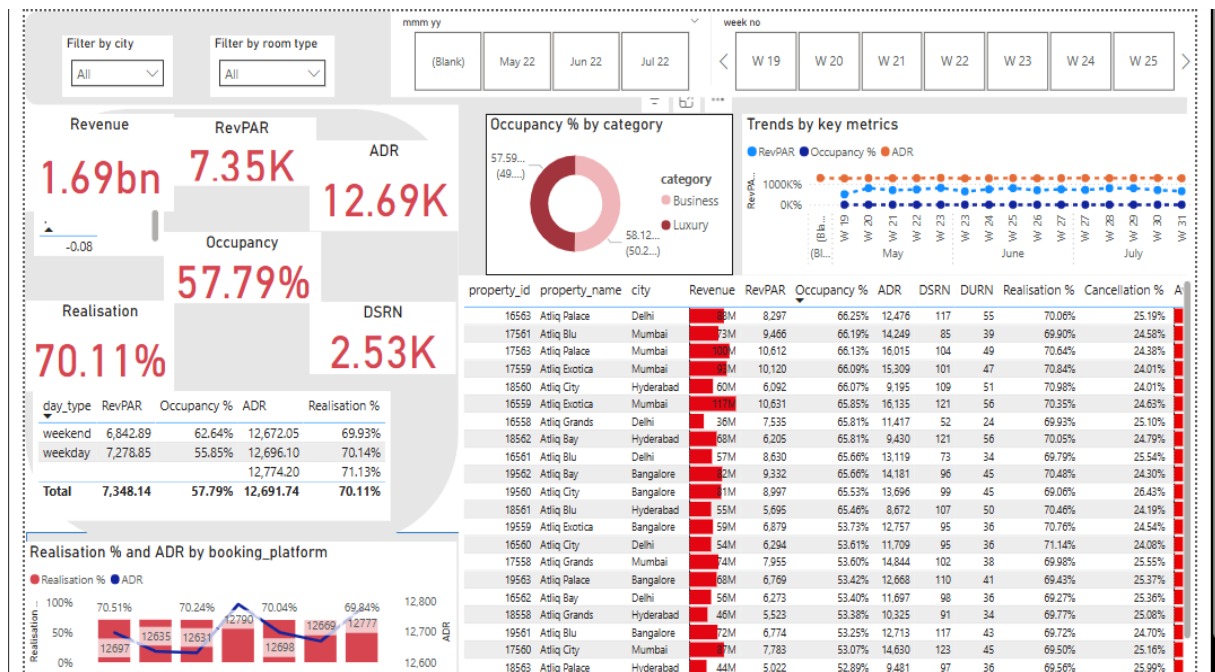

#### **Introduction**

This week's assignment was to do data visualization . I was not new to the tools we were introduced to. I used Power BI to do visualization and finally uploaded the final work on my GitHub account.

The objectives of the assignment were:

1. Understand the Hotel business and client needs
2. Load Data
3. Transform Data
4. Build DAX
5. Visualize Dashboard
6. Publish your project as part of your portfolio collection

## Tasks

## Conclusion

This week I gained a lot of insights and knowledge on data visualization using power BI . I have uploaded my work on my GitHub and I look forward to building a portfolio that I can showcase on my CV as I look for jobs in Data and AI.
